## EXPERIENCE

### • SR. IOS DEVELOPER

BiTaksi Mobil Teknoloji A.Ş. | May 2014 -

I'm responsible of BiTaksi's mobile application development. I've been developing BiTaksi's iOS application, watchOS application, today widget, driver-side iOS application(enterprise). I also working on app's UX&UI design actively.

### • IOS DEVELOPER

Adwin Mobile | Sep 2013 - May 2014

I developed the Adwin's iOS application. With Adwin, users have a new communication channel with the brands. This application lets you easily follow and join different campaigns of the brands. Also I renewed the company' website.

### • SOFTWARE ENGINEER

İdea Teknoloji Çözümleri | May 2013 - Sep 2013

I developed the collaboration application using Asp.NET MVC, JQuery, JQuery UI and many JavaScript frameworks. For the instant messaging section I used Node.js and Socket.IO. I also developed a barcode reading application for both iOS and Android using PhoneGap.
